

To ensure you stay *Safe* with us...

In this clinic, we always strive to provide the safest and most effective care. By participating in the College of Chiropractor's Safe with us initiative, we aim to ensure that we:

- Share and learn from national patient safety experiences
- Make changes where needed to continually improve all aspects of patient safety
- Maintain a clear patient safety policy
- Keep patient safety and wellbeing at the heart of all we do

If you wish to discuss any aspect of patient safety, please ask to speak to our Patient Safety Lead.

About the College of Chiropractors

'The College' is a professional membership body which provides postgraduate and professional training and, with the help of its academic committees and a dedicated Lay Partnership Group, recognises quality, safety and excellence in chiropractic practice. The College takes a practical approach to foster best practice in a number of areas and developed the Safe with Us initiative to help chiropractic clinics maintains the best possible patient safety practices and share best practice.
